Karpo
Made-to-measure planters
with planting inserts

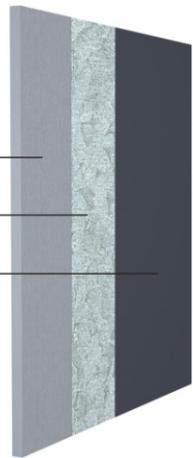

Karpo

Made-to-measure planters with planting inserts

Long-life material

Sheet steel, galvanised and then powder-coated, protects against corrosion - no rust, even with minor damage

Sheet metal
Zinc coat
Powder coat

Alternative: Corten steel

Weather-proof construction steel, processed in Corten A quality as cold-rolled sheet steel. Over approx. 18 months, and in alternating moist and dry conditions, a protective layer develops, first bright reddish, and darker later

Karpo

Made-to-measure planters with planting inserts

Planting inserts create a double wall

More oxygen for the root systems, no standing water, insulating air layer provides protection against heat and cold; also as a watertight insert for indoor use

Individual measurements and shapes

Specific solutions with individual measurements, logo, base or lighting

Many colours and colour combinations

Standard colours: RAL 9003 signal white, RAL 7035 light grey, RAL 7024 anthracite, RAL 9005 black. More colours on request

Plastic feet

Height-adjustable on request up to 4 cm
