

Thallo

FLORA 2011

FLORA 

When modern architecture demands minimalist solutions for greenery, the Thallo family is sure to impress with its function and design. The Thallo system offers three sizes: 40, 70 and 100 cm, of which the 40 cm and 70 cm heights permit all combinations of the three external dimensions. Slender planters for separation purposes are just as easy to create as very large individual planters. Thallo's many variants provide a very flexible range of design opportunities.
